- Act as a visible, senior clinical leader and role model across designated services (IPU, DPS, lymph and complimentary therapy services), promoting excellence in care and professional standards.
- Deliver direct clinical care (approx. 40% of role) including advanced assessments, support staff with complex cases and enable high standards of documentation and care planning
- Lead on the development of nurse-led beds on the In-Patient Unit (to include future developments around additional beds or service delivery e.g. paid-for respite potentially).

- Support complex decision-making and multidisciplinary care planning.
- Lead the delivery of the Care Services Strategy and Organisational Strategy across designated services.
- Lead with integrity, role-modelling and upholding the Leadership Framework in all that you do and expect.
- To have clinical credibility and excellence in specialist palliative and end-of-life care, demonstrating high levels of competence across a range of settings (inpatients and community), coupled with high levels of understanding and a vision of enhanced and advanced practice for nursing and other professions.

#### **Operational Management**

- Plan and oversee all aspects of daily operations including rostering, bed management and patient flow, relevant to your designated services.
- To demonstrate an understanding of integrated performance management and lead on this for your designated services.
- Manage and maintain appropriate staffing/workforce levels, skill mix and deployment.
- Manage allocated budgets and resources efficiently, following the principles of financial sustainability.
- Deputise for the CS Deputy COO as required and support them in delivering against agreed outcomes.
- Ensure the delivery of contracted services aligns with the service specifications and raise concerns or escalations with the Directorate and Senior Leadership Team in a timely way.
- Authority to act on urgent operational issues within agreed policies

#### Quality, Safety & Governance

- Lead on all aspects of clinical governance, incident management and regulatory compliance (CQC standards) for your designated services.
- Undertake regular audits and implement action plans for improvement.
- Promote a culture of learning, openness and continuous improvement.
- To work collaboratively with the Clinical Quality Lead to deliver on contractual expectations, due diligence, governance and reporting.
- Lead on delivering and upholding professional standards and practice
- Lead investigations into complaints and incidents, utilising PSIRF, embedding learning into practice and sharing across teams.

#### **Workforce Development**

- Line-manage senior staff including personal development reviews (PDR), Clinical competence, supervision and performance management.
- Identify training needs and support professional development, enabling the workforce to realise their full potential.
- Lead recruitment and retention initiatives for the designated services.
- Promote a culture of accountability, inclusivity, and continuous learning.

## **Service Development**

- Contribute to strategic and business planning and service redesign to meet changing needs and service demands.
- Implement relevant national and local policies.
